### Guidance on Covid-19

If you are not fully vaccinated, or it has been more than 6 months since completing your primary series of Pfizer or Moderna vaccine and you have not received a booster dose.

January 25, 2022

#### Are you experiencing Covid-19 symptoms?

**GET TESTED!**

You are encouraged to get a diagnostic test.

**Which are you?**

**STUDENT**

- Go to Stamps Health Services
  - Contact Stamps at health.gatech.edu/make-appointment or 404.894.1420 to make an appointment.

**FACULTY/STAFF**

- Go to your doctor or a Georgia Dept. of Public Health testing site
  - Find information at c.gatech.edu/off-campus-testing.

**Is your test positive?**

**YES**

Here’s what to do:

1. Return to your residence and avoid taking public transit.
2. Report your positive test result via the online form c.gatech.edu/covid19reporting.
3. Contact your primary care physician or Stamps Health Services.
4. Await a call from GDPH and notification by the Georgia Tech Contact Tracing Team.
5. Isolate away from others for at least 5 full days. Visit c.gatech.edu/isolation for more information.
6. If you have no symptoms or your symptoms are resolving after 5 days, you can stop isolation. If you have a fever, continue to isolate until your fever resolves.
7. Continue to wear a well-fitting face mask around others for 5 additional days.

**NO**

- Find the symptoms of Covid-19 at c.gatech.edu/daily-checklist.

#### START HERE

**GET TESTED! Asymptomatic**

Surveillance testing sites are free and found in multiple locations on campus.

Find one at c.gatech.edu/testing.

**Did your results recommend a follow-up test?**

**YES**

- Visit c.gatech.edu/isolation for more information.

**NO**

- Your sample will be tested as an individual sample in a diagnostic test, and you will be given your diagnostic results when they are available. Results will be communicated through Stamps Health Services’ patient portal, which can be accessed from health.gatech.edu, or by phone.

**Have you had close contact* with someone who’s tested positive?**

**YES**

- If you tested negative for the virus that causes Covid-19 but still have symptoms, you may have received a false negative test result. You should isolate away from others.

**FACULTY/STAFF**

- Go to “Is your test positive?” for students or faculty/staff.

**STUDENT**

1. Return to your residence and avoid taking public transit.
2. Report your positive test result via the online form c.gatech.edu/covid19reporting.
3. Contact your primary care physician or Stamps Health Services.
4. Await a call from GDPH and notification by the Georgia Tech Contact Tracing Team.
5. Isolate away from others for at least 5 full days. Visit c.gatech.edu/isolation for more information.
6. If you have no symptoms or your symptoms are resolving after 5 days, you can stop isolation. If you have a fever, continue to isolate until your fever resolves.
7. Continue to wear a well-fitting face mask around others for 5 additional days.

**NO**

- You are encouraged to:
  1. Practice social distancing and good hygiene.
  2. Wear a well-fitting face mask.
  3. Return for asymptomatic tests weekly. Learn more at c.gatech.edu/jpj.

---

*Close contact: within 6 feet or 15 cumulative minutes in a 24-hour period.

---

**Your sample will be tested as an individual sample in a diagnostic test, and you will be given your diagnostic results when they are available. Results will be communicated through Stamps Health Services’ patient portal, which can be accessed from health.gatech.edu, or by phone.**

**Voluntary use of the no-cost exposure notification app NOVID is recommended for all members of the Tech community who live or work on campus.**

Find it [here](c.gatech.edu/isolation).
