If you test negative for the virus that causes Covid-19 but still have symptoms, you may have received a false negative test result. You should isolate away from others. Visit c.gatech.edu/isolation for more information.

Guidance on Covid-19

If you are not fully vaccinated, or if it has been more than 6 months since completing your primary series of Pfizer or Moderna vaccine or more than 2 months since your J&J vaccine and you have not received a booster dose.

January 25, 2022

Are you experiencing Covid-19 symptoms?

Voluntary use of the no-cost exposure notification app NOVID is recommended for all members of the Tech community who live or work on campus. Find it here.

GET TESTED!

You are encouraged to get a diagnostic test.

Which are you?

STUDENT

Go to Stamps Health Services
Contact Stamps at health.gatech.edu/make-appointment or 404.894.1420 to make an appointment.

FACULTY/STAFF

Go to your doctor or a Georgia Dept. of Public Health testing site
Find information at c.gatech.edu/off-campus-testing.

Is your test positive?

YES

Here's what to do:

1. Return to your residence and avoid taking public transit.
2. Report your positive test result via the online form c.gatech.edu/covid19reporting.
3. Contact your primary care physician or Stamps Health Services.
4. Await a call from GDPH and notification by the Georgia Tech Contact Tracing Team.
5. Isolate away from others for at least 5 full days. Visit c.gatech.edu/isolation for more information.
6. If you have no symptoms or your symptoms are resolving after 5 days, you can stop isolation. If you have a fever, continue to isolate until your fever resolves.
7. Continue to wear a well-fitting face mask around others for 5 additional days.

NO

GET TESTED!

Asymptomatic

Surveillance testing sites are free and found in multiple locations on campus. Find one at c.gatech.edu/testing.

Did your results recommend a follow-up test?

YES

Here’s what to do:

1. If you're on campus, return to your place of residence.
2. Report your positive test result via the online form c.gatech.edu/covid19reporting.
3. Contact your primary care physician.
4. Contact your supervisor.
5. Await a call from GDPH and notification by the Georgia Tech Contact Tracing Team.
6. Isolate for 5 days. If you have no symptoms or your symptoms are resolving after 5 days, you can stop isolation. If you have a fever, continue to isolate until your fever resolves.
7. Continue to wear a well-fitting face mask around others for 5 additional days.

NO

Have you had close contact* with someone who’s tested positive?

YES

If you test negative for the virus that causes Covid-19 but still have symptoms, you may have received a false negative test result. You should isolate away from others. Visit c.gatech.edu/isolation for more information.

Here’s what to do:

1. Practice social distancing and good hygiene.
2. Wear a well-fitting face mask.
3. Return for asymptomatic tests weekly. Learn more at c.gatech.edu/jpj.

NO

Here’s what to do:

If you have been in close contact with someone who’s tested positive, recommendations for actions to take in response to your exposure can be found by visiting c.gatech.edu/isolation.

STUDENT

FACULTY/STAFF

Here’s what to do:

1. Return to your residence and avoid taking public transit.
2. Report your positive test result via the online form c.gatech.edu/covid19reporting.
3. Contact your primary care physician or Stamps Health Services.
4. Await a call from GDPH and notification by the Georgia Tech Contact Tracing Team.
5. Isolate away from others for at least 5 full days. Visit c.gatech.edu/isolation for more information.
6. If you have no symptoms or your symptoms are resolving after 5 days, you can stop isolation. If you have a fever, continue to isolate until your fever resolves.
7. Continue to wear a well-fitting face mask around others for 5 additional days.

What are the criteria for ending isolation? See c.gatech.edu/isolation.

*Close contact: within 6 feet or 15 cumulative minutes in a 24-hour period.
**Guidance on Covid-19**

If you are fully vaccinated and have received a booster dose of vaccine, or it has been less than 6 months since completing your primary series of Pfizer or Moderna vaccine or less than 2 months since your J&J vaccine.
