Guidance on Covid-19
If You Are Vaccinated

August 12, 2021

START HERE

Are you experiencing Covid-19 symptoms?

Voluntary use of the no-cost exposure notification app NOVID is recommended for all members of the Tech community who live or work on campus.

Find it here.

GET TESTED!
Diagnostic

Which are you?

STUDENT

Go to Stamps Health Services
Contact Stamps at health.gatech.edu/make-appointment or 404.894.1420 to make an appointment.

Is your test positive?

YES

Here’s what to do:
1. Return to your residence and avoid taking public transit.
2. Report your positive test result via the online form c.gatech.edu/covid19reporting.
3. Contact your primary care physician or Stamps Health Services.
4. Await a call from GDPH and the Georgia Tech contact tracing team.
5. Return home to isolate for 10 days or move to on-campus isolation housing provided by Georgia Tech Housing and Residence Life.

NO

FACULTY/STAFF

Go to your doctor or a Georgia Dept. of Public Health testing site
Find information at c.gatech.edu/off-campus-testing

Is your test positive?

YES

Here’s what to do:
1. If you’re on campus, return to your place of residence.
2. Report your positive test result via the online form c.gatech.edu/covid19reporting.
3. Contact your primary care physician.
4. Contact your supervisor.
5. Await a call from GDPH and the Georgia Tech contact tracing team.
6. Isolate for 10 days at your place of residence.

Practice good hygiene and participate in weekly surveillance testing. Wearing a mask is also encouraged while inside campus facilities.

NO

Have you had close contact* with someone who’s tested positive?

CLOSE CONTACT: within 6 feet for 15 or more minutes.

YES

Stay home and take care of yourself!

NO

Is your test positive?

YES

STUDENT

NO

FACULTY/STAFF

Here’s what to do:

You can refrain from quarantine but should get tested 3-5 days after your exposure. You should also wear a mask in public indoor spaces for 14 days following exposure or until your test result is negative. Continue to monitor for symptoms of Covid-19 for 14 days following exposure.
